

INTRODUCING  
**OMCO Star**™  
Tracker Control System

**OMCO SOLAR**®

## SUPERIOR LONG-RANGE COMMUNICATION

---

- Reliable LoRa wireless technology with a range of more than 1 mile,
- Fewer gateways needed for better direct communication compared to Zigbee technology, and
- Better signal penetration of object (trees, buildings, earth, etc).

## ADVANCED WEATHER FEATURES

---

- Maximizes energy production with minimal risk during weather events, and
- Real-time weather alerts through advanced monitoring app.

## SEAMLESS OPERATIONS

---

- Advanced monitoring app that saves trips to the site,
- Set up with our fast and reliable phone app - no buttons on the controller, and
- Designed to pair seamlessly with **OMCO Origin®** Factory-Direct Trackers.

AMERICAN-MADE  
**SOLAR**  
FOR AMERICA

## FIELD REPLACEABLE BATTERY

---

- No recommissioning required,
- No special tools needed, and
- Plug and play installation in fewer than 3 minutes.
